SAFETY TIPS:

- The most frequent crime in Poncey Highlands is the theft of an iPod, Laptop, or cell phone from a car, usually overnight. Do not leave valuable items in your car! It may seem obvious, but there are at least two of these a week in our neighborhood.
- Break down the boxes for new appliances, especially televisions, instead of leaving them on the curb... a news plasma box on the curb in front of the house is an advertisement for a thief looking for a house to hit.
- Don't hire day laborers. It may seem charitable and convenient to pick up a couple people at Home Depot to rake your yard, or to hire someone going door to door looking for work to clean out a garage, but in many documented cases these jobs are just a front to scope out your house, how to break in, and your patterns. The neighborhood also does not need to encourage non residents from soliciting.
- Make sure your house numbers are visible from the street AND visible at night. If the pizza guy can't find your house neither can the police or EMTs.
- Know your neighbors. Let them know when you are going to be out of town so they can be on the lookout for suspicious activity at your residence.
- Keep up the appearance of your property. Unmoved lawns, old newspapers, herbie-kerbies that have not been returned are all signs to a potential burglar that you are not home. If you are not going to be there then work out a deal with a neighbor or stop your mail by filling out a simple form from the post office... available in person or online, and putting it in your mailbox.
- Make sure someone has your current phone numbers so you can be reached. If you have an alarm, make sure the alarm company has your current contact info. Atlanta police have reported not being able to keep persons of interest more than overnight because they could not locate victims to identify property.
